## 2025 AIJA PRESIDENCY GOALS & CONGRESS THEME

AIJA has always been a strong advocate of empowering the next generation. Our focus in 2025 is to help young lawyers to develop professional skills at their stage of their career and expand their international network. AIJA's offerings, including its mentorship program, will encourage participants to take the next step in their careers. Joint publication efforts will showcase our members' expertise and put them at the forefront of shaping tomorrow's legal services.

The Congress will offer a robust multidisciplinary program, focusing on must-have skills for young lawyers, both from a legal and practical perspective. We want to empower our participants to discover their full potential and improve their professional skills through innovative and interactive plenary sessions, as well as individual coaching sessions. Participants will share expertise and knowledge in business development, data management, and technology to discuss and develop a successful approach to legal challenges and opportunities and build bridges between generations, during the Congress and beyond.
